Fort Lauderdale, FL 33310-5403
(954) 760-5200

March 14, 2005

Dear Shareholder:

I am pleased to enclose your new stock certificate which reflects the 5-for-4 common stock split effected in the form of a 25% stock dividend payable in Class A common stock to both Class A and Class B common stockholders of record at the close of trading on March 7, 2005.

These additional shares have been issued as Class A common stock regardless of the class of common stock ("Class A common stock" and/or "Class B common stock") you may own. The enclosed Class A common stock certificate represents shares equal to 25% of your common stock holdings. Retain your existing certificates as they continue to be valid.

This dividend should be treated as a tax-free split for income tax purposes and no income tax is due upon receipt of the additional shares. For purposes of allocating the cost of your shares, including the additional shares, a worksheet is attached. Your new cost basis per share will result in a lower cost basis per share for your original shares. In each case your original total cost prior to receipt of the additional shares must equal the reallocated cost of the total original and additional shares received. You should consult with your tax advisor regarding your individual tax situation.

Thank you for your valued confidence and support for BFC Financial Corporation

Sincerely,

Alan B. Levan
President
